Linux

WORK EXPERIENCE

Software Developer at **Adaca** (September 2022 – Current)

- Facilitated onboarding new developers onto the system, ensuring a smooth transition and accelerated integration into the development workflow.
- Improved the developer experience by implementing types and enhanced the codebase's maintainability.
- Established client communication, ensuring alignment with project requirements and consistently delivering tailored solutions within the system.

Software Developer at **Digiteer** (June 2021 – August 2022)

- Developed, maintained, and enhanced Digiteer's Full Stack Applications.
- Supported production issues and escalated concerns as needed.
- Managed and monitored AWS cloud services.

Software Developer at **Techmaker** (November 2019 – June 2021)

- Delivered improvements on Techmaker's Full Stack Applications.
- Turned design prototypes into single page apps.
- Documented all supported systems to effectively train the new and existing team members.

PROJECTS

SFMBBlue – Buy & Sell wholesale seafood online. (Current)

- Expanded the price quoting feature to cover a global scope, extending from Australia and New Zealand to worldwide.
- Implemented negotiation functionality into the system, enabling buyers to engage in listing negotiations.
- Introduced and improved the developer experience by implementing types through JSDoc in a legacy system, thereby modernizing and enhancing the codebase's maintainability.
- Enhanced email templates to ensure compatibility with a broader range of email clients.

Santi – E-Learning platform for Donbosco. (July 2021 - January 2022)

- Delivered improvements on managing contents on the student portal including maintenance of lesson, bulletin, event, etc.

Arsenal - Rental platform for filmmakers in the Philippines. (November 2019 – June 2021)

- Developed major features like OTP, checkout, booking requests and cart pages.
- Reviewed code and debugged errors to improve performance.

Automart.ph – Used, second-hand and repossessed cars. (January 2020 – March 2020)

- Worked on frontend with template engine Blade and JQuery.
- Developed major feature like scheduler with Laravel.

EDUCATION

Batangas State University – BS in Information Technology (2015 – 2019)
